

Web Head Plan

Esraa Magdy

Strategic pillars

Vision :-

- To accelerate the student's transition into future technologies
- To raise the image and the reputation of Energia

Mission: -

- Prepare leaders to be experts in their fields and able to manage themselves and others

Objective:-

- Training all members and prepare them for the practical life
- Increase their technical skills
- more developing for energia website
- design and prepare the material for our first workshop
- train the members to be a good instructors
- Build leaders that will lead the committee

SWOT Analysis

Strengths:-

- Popularity
- Projects and events are very effective
- Very good marketing
- Being 8 years in the university
- Deep technical knowledge

Weaknesses:-

- Weak communication between " IT committee " and the rest of the team

Opportunities:-

- A lot of members applying to the committee
- Many of them have a good knowledge on web or have a high enthusiasm

Threats:-

- Many of the members leave the committee
- Weak communication between members

Members (10 : 16)

The members will be divided into 3 categories:

1. Basic : (6 : 8) members :-

- They are:
 - Have knowledge in HTML + CSS
- They will:
 - be perfect in JS
 - learn react or node.js (front or back)
 - at the end of our season they will make an intermediate project
 - Write small articles in “crew” group

2. Intermediate : (3 : 5) members :-

- They are:
 - Have knowledge in HTML + CSS + JS + tools like (jquery & bootstrap)
- They will:
 - be perfect in react or nodeJS (front or back)
 - Learn advanced tools e.g: Ajax
 - at the end of our season they will make 2 intermediate projects
 - Write small articles in the team website
 - Prepare to work in the website and adding new features to it

3. Professional : (1 : 3) members :-

- They are:
 - Have knowledge in HTML + CSS + JS + git & github + ajax + react or nodejs
 - Have good portfolio & high enthusiasm
- They will:
 - at the end of our season they will make 2 projects (intermediate & Professional)
 - Write Professional articles in the team website
 - adding new features to our team website

Time line

1. (1 / 8) to (15 / 8) :-

Interviews

2. Stage 1 ...

- (15 / 8) to (30 / 10) :-

** general training **

basic : they will learn JS

intermediate : they will learn react or node js

advanced : they will work with me as a technical support

3. Stage 2 ... (1 / 11) to (30 / 12)

Basic : will learn react or node

Intermediate & advanced : will work on a project

4. Stage 3 ... (1 / 2) to (15 / 4)

the committee will divide into 2 teams .. and make 2 projects ...

5. (15 / 4) to (30 / 4)

- Competition with our last 2 projects ...
- Preparing for Companies' interviews
- Closing
